ARTHUR BRISBANE

Seats ate Choyong & Cuya Intz;

We are now in Sacramento and have been here two days to see the reparafus caning.

We are leaving this afternoon and will go to Ames, Iowa; Chicago, Wash. D.C. and New York. We are coming back to California next August or July to see the canning of brints. Then

ADDRESS

we will go to New York again to take the boat for Europe.

We are learning quite a good deal in canning and everyday we have some place to go to or some cannery to visit.

How are you? And the children?

I am well and hope you are all the same lovingly
